Hi Amy,

Yes, DNREC does receive monitoring well data from Mountaire as part of their permit requirements. However, it is not publicly posted.

Please let me know if I may be of any further assistance; and/or, feel free to contact me at (302) 739-9323.

Subject: Data from Mountaire Farms monitoring wells

Hi Jack, I'm not sure if you are the appropriate person to ask this so please feel free to bump this message along.

We are fielding FOIA requests (as I am sure DNREC is) and in the name of streamlining some of these requests I was wondering if DNREC routinely keeps any data from the Mountaire spray irrigation monitoring wells as part of their permit requirements?

We have been receiving 1/4ly data from a small subset (7) wells since the 2003 EPA Order but it is my impression that we just get copies of regularly taken monitoring data that goes elsewhere for permit compliance review by DNREC.

Is my assumption correct?

If so, is any of this data posted publicly so I could direct the FOIA requesters to a central location.

I appreciate any help.

Amy
